

Manchester Essex Regional Schools District Improvement Plan (DIP) Focus Areas 2023-2024

The [MERSD Strategic Plan](#) consists of a district Mission, Vision, Core Values and Vision of the Graduate and informs the development of the district and school-based improvement plans and, ultimately, the framework for the development of teacher goals and objectives. Based on the model of continual improvement, improvement plans are cyclical and intended to be a living documents that together provide a road map for growth and improvement. The District Improvement Plan is a three-year action plan targeted at the achievement of the strategic priorities identified in the strategic overview. The District Improvement Plan defines the systems, structures, organizational level work to be done to support the differentiated school level plans which are developed with stakeholder input and collaboration with School Councils.

Strategic Initiative I <i>Establish and foster an authentic Pre-K-12 learning environment.</i>			
Summary of Current Status FY22: <i>Looking to strengthen and build upon the success of our traditional academic program and better prepare students for the workplace of tomorrow, MERSD is committed to creating a future-focused education program designed to create and educational environment that allows us to achieve the Vision of the Graduate (VOG). Over the next three years the District will work to develop the systems and structures needed to define and establish a strong foundation on which to build a lasting authentic learning environment. Recognizing that we come to this work with each of our schools at a different readiness level and with a different set of challenges to program development, the district plan is by design organized to coordinate and ensure vertical and horizontal alignment, articulation, and cohesiveness while allowing for needed differentiation at the building level. Note: School specific actions steps are outlined in the two-year school improvement plans.</i>

Strategic Initiative 2
Integrate social emotional learning into all aspects of the school day.

Summary of Current Status FY22: *MERSD recognizes that the relationship between social emotional well-being and student success is key to student achievement for our students. MERSD believes schools must establish a safe environment that meets our students where they are and supports the growth and development of all. Schools must engage every aspect of a child's development, including knowledge, a sense of self, emotional well-being, physical health, and skills and strategies so that they will be available to access learning. To this end, the district has participated in a multi-year partnership with Yale University's Center for Emotional Intelligence and has implemented their systematic approach to teaching social emotional learning (SEL) with RULER. RULER is an acronym for the five skills of emotional intelligence: recognizing, understanding, labeling, expressing, and regulating. These behavioral practices are foundational to building a culture of competence needed to achieve an inclusive and equitable school community.*

District Improvement Plan 2022-2025

Strategic Initiative 3

Celebrate and nurture an inclusive and diverse school culture that recognizes the contributions and uniqueness of all individuals.

*Summary of Current Status FY22: The Manchester Essex Regional School District is racially a homogeneous community with a population that is 96.5 white. While racial diversity is not a predominant element of our culture, the community experiences cultural differences and inequities beyond race, including religious diversity, socio-economic diversity, linguistic diversity; diversity in learning and physical abilities, and diversity of identity and expression within our LGBTQ+ community. A key element of creating a safe and supportive school environment is developing a **culturally competent** faculty and staff who bring a global perspective that reaches beyond the walls of the classroom. This plan will support our efforts to provide all members of the MERSD community with a set of tools to address issues of equity, diversity, and inclusion in school and beyond. It is through heightened awareness that a community learns about its implicit bias and gaps in inclusivity. Through this work, faculty will be more skilled at increasing student access to the curriculum to better position all students to not only reach their individual potential but also develop strategies to negotiate and compete in a global environment.*

District Improvement Plan 2022-2025

Strategic Initiative 4

Ensure funding for a stable, multi-year budget and capital improvement plan through collaboration with town and community partners.

Summary of Current Status FY22: *MERSD's School Committee financial goals include the objective to develop and deliver a fiscally responsible budget that supports our Mission, Vision, Core Values, and strategic initiatives while maintaining educational quality. MERSD's operational budget is managed each year to deliver stable and predictable growth in spending and assessment by advocating for program needs and managing town funding constraints. Over the past seven years, spending and assessment increases have been relatively consistent, averaging 3.27% and 3.17%, respectively. It is essential that the District and our community partners collaborate to reliably provide the necessary funding to deliver on the promise of the MERSD strategic plan. Financial stability allows the District to focus its time and human capital on the core functions of teaching and learning as well as the implementation of our long-range improvement goals.*
