Tools for Teaching with Technology in Middle and High School

Here are some of the most frequently used tools for remote education.

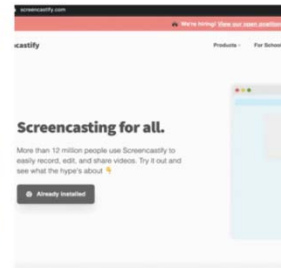

[Google Classroom](#) and the [Google Apps Suite](#)

Your Learning Management System and shared documents platform.

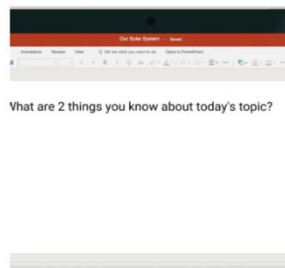

[Zoom](#) and [Google Meet](#)

Video conferencing for small or large groups.

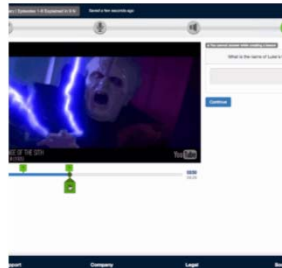

[Screencastify](#)

Make videos, tutorials, or record your screen.

[Pear Deck](#)

Make your slide presentations interactive, and gather formative assessment data.

[EdPuzzle](#)

Insert questions directly into videos for your students to complete.

[Padlet](#)

Shared online memory boards with links.
